Basic Educational Data Survey, Enrollment File; Census Data

Notes: Title II Part A Allocations for FY04 are held at the same levels as FY01.

The total amount to be allocated according to poverty and enrollment was determined by subtracting the total FY01 Federal Class Size and Title II allocations from the FY04 grand total of \$20,702,787. This difference totaled \$8,343,756 and was then allocated by district with 80% being allocated according to poverty and the remaining 20% being allocated according to enrollment. The poverty count numbers were furnished to the department by the United States Department of Education. The enrollment allocations were based on the combined total of public and nonpublic students in grade K-12 within each district as reported on the 2002-03 fall Basic Educational Data Survey.
